Inground Post/Mount Installation

STEP: 1

DO <u>NOT</u> CEMENT POSTS/MOUNTS INTO PLACE UNTIL THE ENTIRE STRUCTURE IS ASSEMBLED.

Refer to the General Installation guide footing size information and digging proper holes for the support posts/mounts.

3.5-inch Clamp Installation Examples

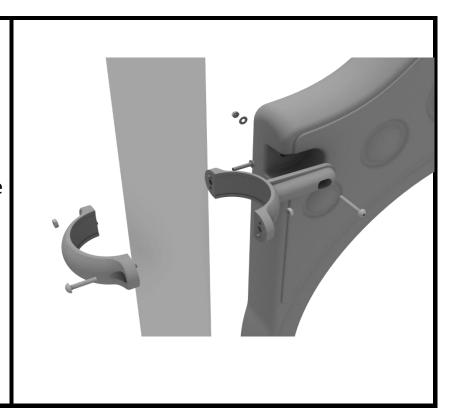

The following three pages will include examples of how to install some of the most common types of Clamps that are present on our structures that use 3.5-inch outside diameter posts. The structure that you are assembling might not require all the types of clamps listed in these examples.

The Install Guides for specific components that come later in this document might call for a specific type of clamp (a tube clamp for example), those sections will not include detailed instructions for the clamps and should direct you back to this section for more detailed information.

3.5-inch Flat Clamp Install Example

Connect half of the flat clamp to the component using one (1) M8*40 bolt. Then, using the other half of the flat clamp and the hardware provided in the clamp hardware bag, attach the backside of the flat clamp around the post.

3.5-inch Clamp Installation Examples

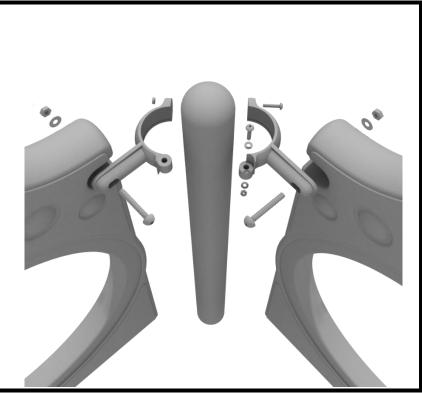

3.5-inch Tube Clamp Install Example

Connect half of the clamp to the component using one (1) M8*30 bolt. Then, using the other half of the tube clamp and the hardware provided in the clamp hardware bag, attach the backside of the tube clamp around the post.

3.5-inch 90-Degree Flat Clamp Install Example

Connect half of the flat clamp to one panel using one (1) M8*40 bolt. Then, using the other half of the flat clamp and the hardware provided in the clamp hardware bag, attach the other half of the tube clamp around the post. Then, attach the next panel to the other side of the clamp using the same process.

3.5-inch Clamp Installation Examples

3.5-inch Double Slide Clamp Install Example

Connect half of the double slide clamp to the double slide hood using one (1) M8*30 bolt. Then, using the other half of the clamp and the hardware provided in the clamp hardware bag, attach the backside of the double slide clamp around the post.

Square Deck Installation

STEP: 1

After the posts are in place, using four (4) M10*35 Bolts, eight (8) M10 Washers, and four (4) M10 Lock Nuts, attach each square deck to each pre-attached deck clamp as shown in the image.

Deck clamps are pre-attached to the posts and should not be altered in any way.

Square Deck Connect to Square Deck

STEP: 1

When installing decks that are adjacent to one another at the same height, they should be bolted together. On the underside of the deck, install using four (4) M10*25 Bolts, eight (8) M10 Washers, and four (4) M10 Lock Nuts. Repeat this process for every set of adjacent decks.

3.5-inch 2-Clamp Arch Rail Installation

STEP: 1

Attach the Arch Rail to the designated posts by connect half of the tube clamp to the arch rail using one (1) M8*30 bolt. Repeat this process for each post attachment point. Then, attach the rail to the deck using two (2) M10*25 bolts, four (4) M10 washers, and two (2) M10 lock nuts. Finally, attach the second half of the clamp around the post.

3.5-Inch 30-Inch Single Slide Installation

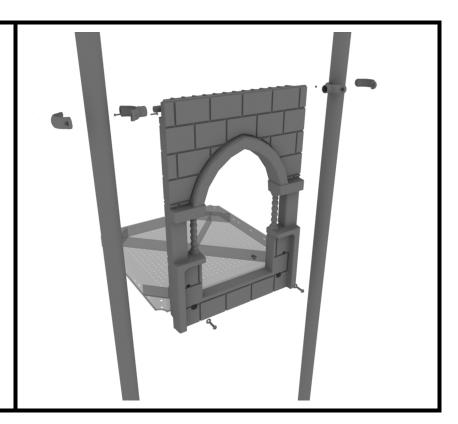

STEP: 1

Take one (1) 3.5-Inch tube clamp, and loosely attach it around a post using the bolts and nuts provided in the clamp hardware bag. Repeat this process on the other post.

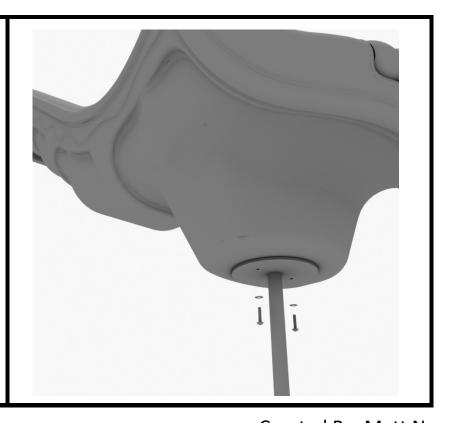

Then, use one (1) M8*40 bolt, one (1) M8 washer, and one (1) M8 lock nut for each connection point.

Leave bolts loose until slide is in place.

STEP: 2

See general installation guide regarding footing information for the slide end mount. Using two (2) M8*20, two (M8) spring washers.
And two (2) M8 washers, attach the slide to the slide support post.

3.5-Inch 30-Inch Single Slide Installation

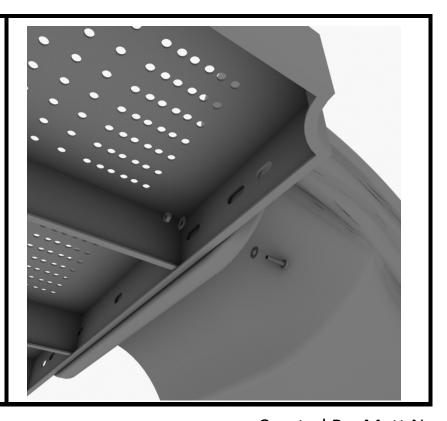

STEP: 3

See general installation guide regarding footing information for the middle slide support. Using two (2) M8*20 bolts, two (2) M8 spring washers, and two (2) M8 washers, attach the middle slide support post. Repeat the process for each middle slide mount.

STEP: 4

To attach a single slide to a deck, use two (2) M10*45 bolts, four (4) M10 washers, and two (2) M10 lock nuts. Repeat this process for the other side of the slide. Repeat this process for each single slide.

3.5-Inch 30-Inch Single Slide Installation

STEP: 5

Using two (2) M8*45 bolts, two (2) M8 washer, two (2) M12 washers, and one (1) M12 inner hex spiral nut, attach the slide to the slide hood. Repeat this process for the other side of the slide.

3.5-Inch Ball Maze Panel Installation

Attach the Ball Maze Panel to the designated posts using two (2) tube clamps two (2) M4*25 Set Screws.

Then, attach the bottom of the panel to the deck using two (2) M10*50 bolts, four (4) M10 washers, and two (2) M10 lock nuts.

3.5-Inch Draw Bridge Climber Installation

STEP: 1

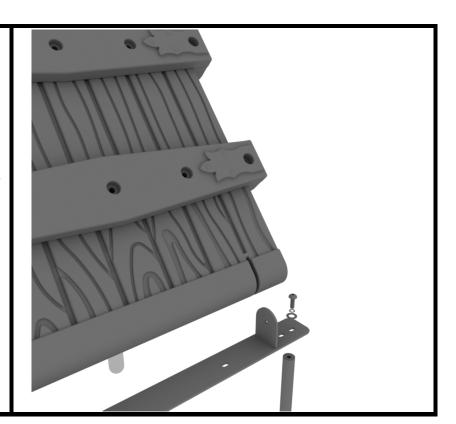

Detach both of the brackets and the provided hardware on each end of the climber.

STEP: 2

Attach the provided support mounts to the top and bottom of the climber using the provided hardware.

Reference the general installation guide regarding footing information.

3.5-Inch Draw Bridge Climber Installation

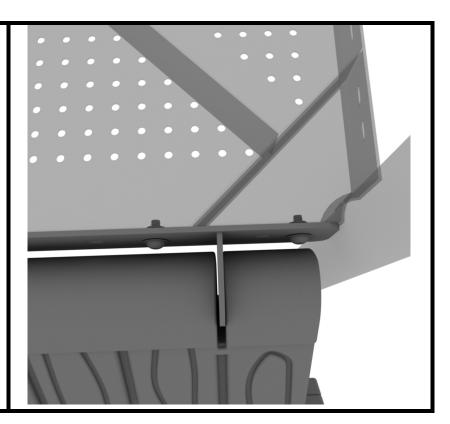

STEP: 3

Mount the Support Leg to the underside of the climber's frame with the provided hardware. Repeat this step for all supplied Support Legs.

STEP: 4

Attach the climbers mounted bracket to the deck with the provided hardware.

Castle Tube Slide Installation

STEP: 1

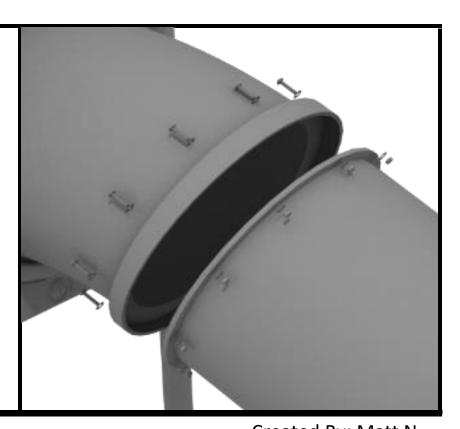

The top and bottom of both panel will attach to the post using Tube Clamps. Reference the Clamp Guide for installation instructions.

STEP: 2

Connect the tube slide together using ten (10) M8*30 bolts, ten (10) M8 washers, and ten (10) M8 lock nuts.

Repeat this step for each tube segment.

Castle Tube Slide Installation

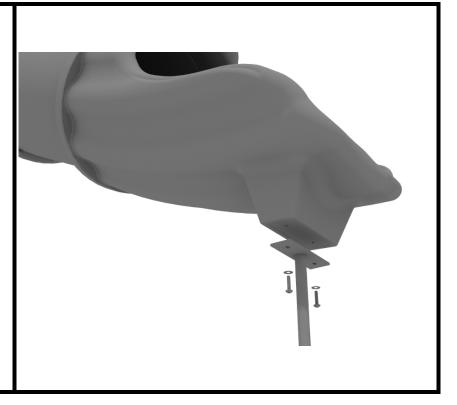

STEP: 3

Then, attach the tube slide support to the slide support brackets by inserting the support into the designated slot under the slide, and tighten the set screws using the provided Allen wrench. Repeat this process for the other slide support post.

STEP: 4

Attach the slide end mount to the bottom of the slide using four (4) M10*20 bolts, four (4) M10 spring washers, and four (4) M10 washers.

10859 Washington St. Suite 200 Indianapolis, IN.46229 1-800-667-0097

Kickplate Install

STEP: 1

Using eight (8) M10*25 bolts, sixteen (16) M10 washers, and eight (8) M10 lock nuts, attach the kickplate to the proper decks.

10859 E Washington St. Suite 200 Indianapolis, IN 46229 1-800-667-0097

Created By: Aaron Price Date Modified: 06/26/18

Rain Wheel Installation

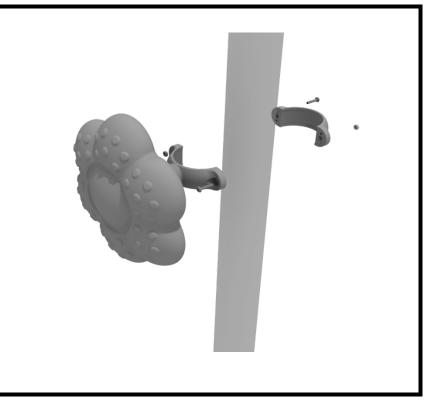

Detach half of the tube clamp connected to the Rain Wheel, and reattach the clamp around the support post, as shown in the picture.

Recommended install height is 20 to 36 inches above surfacing depending on age range.

We recommend using Thread-locking fluid on bolts connecting Rain wheel to clamp to prevent hardware from loosening over time.

(Thread-locker not supplied)
