# **Inground Post/Mount Installation**

STEP: 1

# DO <u>NOT</u> CEMENT POSTS/MOUNTS INTO PLACE UNTIL THE ENTIRE STRUCTURE IS ASSEMBLED.

Refer to the General Installation guide footing size information and digging proper holes for the support posts/mounts.

### 3.5-Inch Clamp Installation Examples

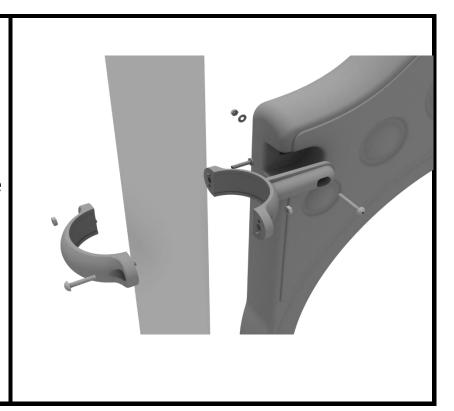

The following three pages will include examples of how to install some of the most common types of Clamps that are present on our structures that use 3.5-inch outside diameter posts. The structure that you are assembling might not require all the types of clamps listed in these examples.

The Install Guides for specific components that come later in this document might call for a specific type of clamp (a tube clamp for example), those sections will not include detailed instructions for the clamps and should direct you back to this section for more detailed information.

#### 3.5-inch Flat Clamp Install Example

Connect half of the flat clamp to the component using one (1) M8\*40 bolt. Then, using the other half of the flat clamp and the hardware provided in the clamp hardware bag, attach the backside of the flat clamp around the post.

#### 3.5-Inch Clamp Installation Examples

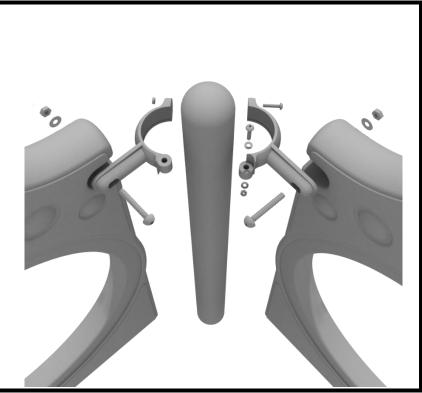

#### 3.5-inch Tube Clamp Install Example

Connect half of the clamp to the component using one (1) M8\*30 bolt. Then, using the other half of the tube clamp and the hardware provided in the clamp hardware bag, attach the backside of the tube clamp around the post.

#### 3.5-inch 90-Degree Flat Clamp Install Example

Connect half of the flat clamp to one panel using one (1) M8\*40 bolt. Then, using the other half of the flat clamp and the hardware provided in the clamp hardware bag, attach the other half of the tube clamp around the post. Then, attach the next panel to the other side of the clamp using the same process.

# **Right Triangle Deck Installation**

STEP: 1

After the posts are in place, using three (3) M10\*35 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the triangle deck to each pre-attached deck clamp as shown in the image.

Deck clamps are pre-attached to the posts and should not be altered in any way.

# **Square Deck Installation**

STEP: 1

After the posts are in place, using four (4) M10\*35 Bolts, eight (8) M10 Washers, and four (4) M10 Lock Nuts, attach each square deck to each pre-attached deck clamp as shown in the image.

Deck clamps are pre-attached to the posts and should not be altered in any way.

#### **Castle Incline Tube Bridge Installation**

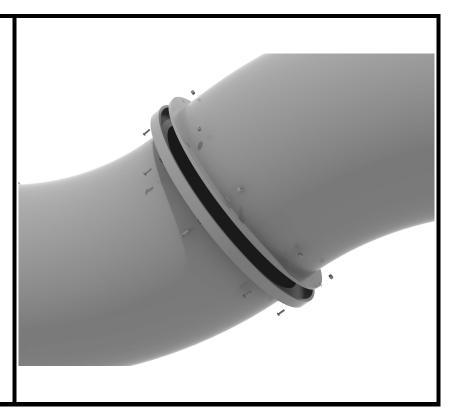

STEP: 1

The top and bottom of both panel will attach to the post using Tube Clamps. Reference the Clamp Guide for installation instructions.

#### STEP: 2

Each Section of the tube bridge will attach using ten (10) M8\*30 bolts, twenty (20) M8 washers, and ten (10) M8 lock nuts.

Created By: Derick H Date: 09/29/2020

#### **Castle Incline Tube Bridge Installation**

STEP: 3

See general installation guide regarding footing information for the tube bridge support. Loosen the set screw pre-attached to the tube support bracket and insert the L-shaped support. Then screw the set screws back into place.

# 2.5-foot Single Straight Slide Installation

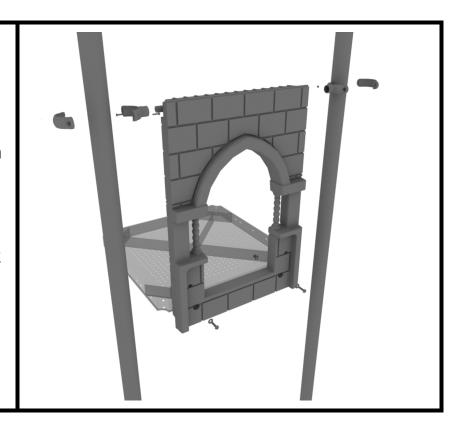

#### TEP: 1

Take one (1) 3.5-Inch tube clamp, and loosely attach it around a post using the bolts and nuts provided in the clamp hardware bag. Repeat this process on the other post.

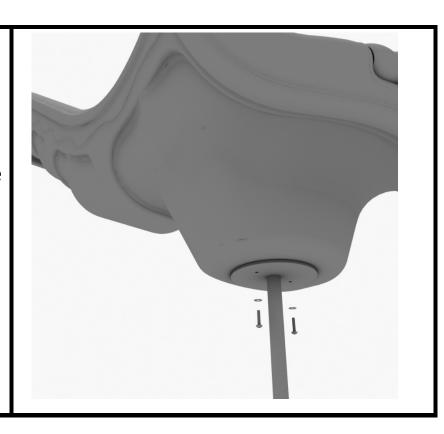

Then, use one (1) M8\*40 bolt, one (1) M8 washer, and one (1) M8 lock nut for each connection point.

Leave bolts loose until slide is in place.

#### STEP: 2

See general installation guide regarding footing information for the slide end mount. Using two (2) M8\*20, two (M8) spring washers. And two (2) M8 washers, attach the slide to the slide support post.

#### 2.5-foot Single Straight Slide Installation

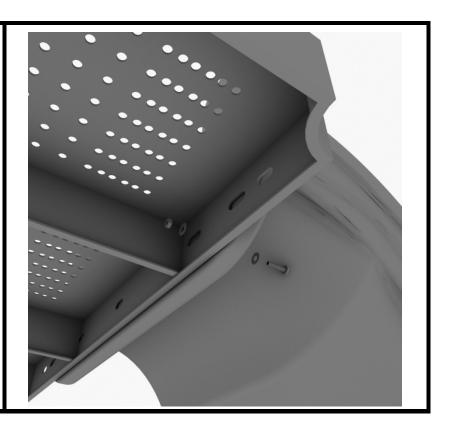

STEP: 3

See general installation guide regarding footing information for the middle slide support. Using two (2) M8\*20 bolts, two (2) M8 spring washers, and two (2) M8 washers, attach the middle slide support post. Repeat the process for each middle slide mount.

#### STEP: 4

To attach a single slide to a deck, use two (2) M10\*45 bolts, four (4) M10 washers, and two (2) M10 lock nuts. Repeat this process for the other side of the slide. Repeat this process for each single slide.

# 2.5-foot Single Straight Slide Installation

STEP: 5

Using two (2) M8\*45 bolts, two (2) M8 washer, two (2) M12 washers, and one (1) M12 inner hex spiral nut, attach the slide to the slide hood. Repeat this process for the other side of the slide.

# 3.5-Inch 4-Clamp Castle Flat Brick Window Panel Installation

Attach the Castle Flat Window
Panel to the designated posts using
four (4) tube clamps four (4) M4\*25
Set Screws. Then, attach the
bottom of the panel to the deck
using two
(2) M10\*50 bolts, four (4) M10
washers, and two (2) M10 lock
nuts.

#### 3.5-Inch Castle Arch Panel Installation

Attach the Roof Topper to the designated posts using two (2) tube clamps, two (2) flat clamps, and four (4) M4\*25 Set Screws.

10859 Washington St. Suite 200, Indianapolis, IN 1-800-667-0097

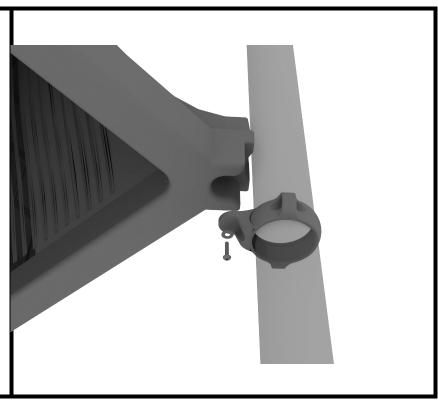

Created By: Matt N. 7/18/2022

# **Castle Square Roof Installation**

STEP: 1

The roof attachment uses four (4) M8\*25 bolts, four (4) M8 washers, and four (4) M8 lock nuts. Set the roof on to the post, and drill through the post bracket and the roof.

10859 Washington St. Suite 200, Indianapolis, IN 1-800-667-0097

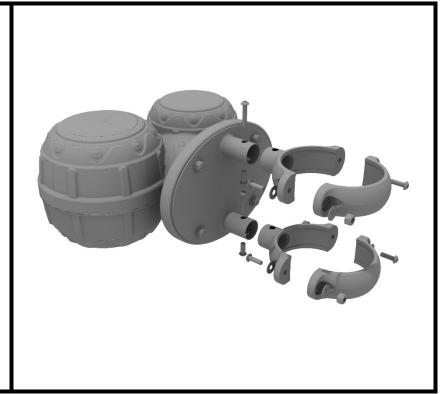

Created By: Matt N. Date: 04/25/2023

# **Bongos Installation**

Playground Equipment

STEP: 1

Detach half of the tube clamps connected to the Bongos, and reattach the clamp around the desired support post. Recommended install height is 20 to 36 inches above surfacing depending on age range.

10859 Washington St. Suite 200, Indianapolis, IN 1-800-667-0097

Created By: Aaron Price

Date: 03/20/2018

#### **Rain Wheel Installation**

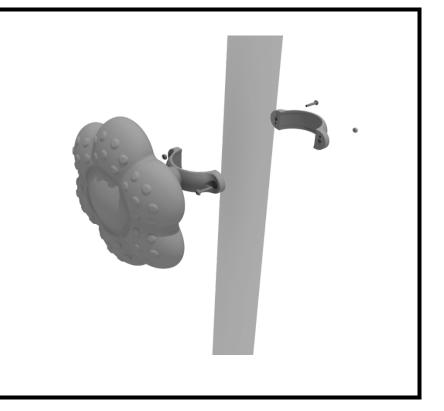

Detach half of the tube clamp connected to the Rain Wheel, and reattach the clamp around the support post, as shown in the picture.

Recommended install height is 20 to 36 inches above surfacing depending on age range.

We recommend using Thread-locking fluid on bolts connecting Rain wheel to clamp to prevent hardware from loosening over time.

(Thread-locker not supplied)
