

EnSoul Music Bell Tree with 7 Bells

IN-GROUND INSTALLATION INSTRUCTIONS

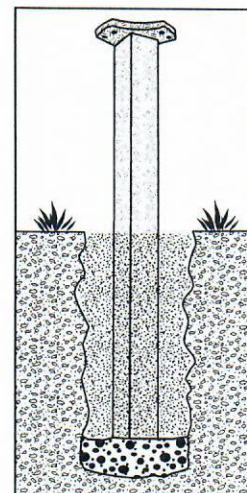

Please read before installing

Your bell tree will arrive pre-assembled.

Grade site to relative level. Lay out equipment in accordance to Playground Safety Guidelines. Dig a hole approximately 12-14" in diameter x 20" deep. Add 2" of gravel to bottom and tamp. Set post to 18" below grade (or desired height), add Sakrete/Quickrete Gravel mix as instructed on packaging.

Level and plumb post as needed. Let cure per manufacturer's recommendations.

The Bell Tree also comes as a free-standing model as well as the in-ground version and in two colors; Rainbow or Black copper.

Bury post a
minimum of
18 inches in ground
