

Post Installation

STEP: 1

**DO NOT CEMENT POSTS INTO PLACE
UNTIL THE ENTIRE STRUCTURE IS
ASSEMBLED.**

Refer to the General Installation
guide footing information and dig
proper holes for the support posts.

Craggy Turn and Straight Sections Install

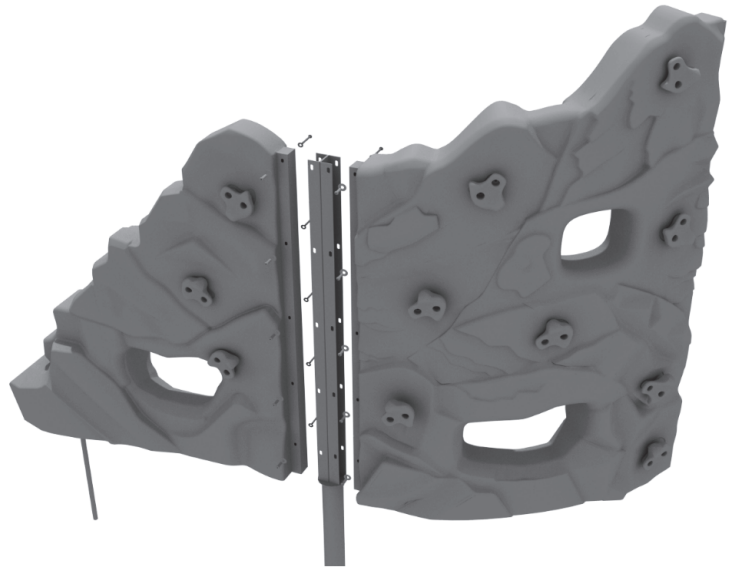

STEP: 1

Attach the two Straight Craggy Sections together with the Mounting Bracket using fourteen (14) M12 bolts, fourteen (14) M8*60 inner hex screws, fourteen (14) M12 washers, and fourteen (14) M8 washers.

Craggy Rock Climber End Installation

Connect the craggy end section to the curved craggy section using ten (10) M12 barrel nuts, ten (10) M8*60 bolts, ten (10) M12 washers, and ten (10) M8 washers.

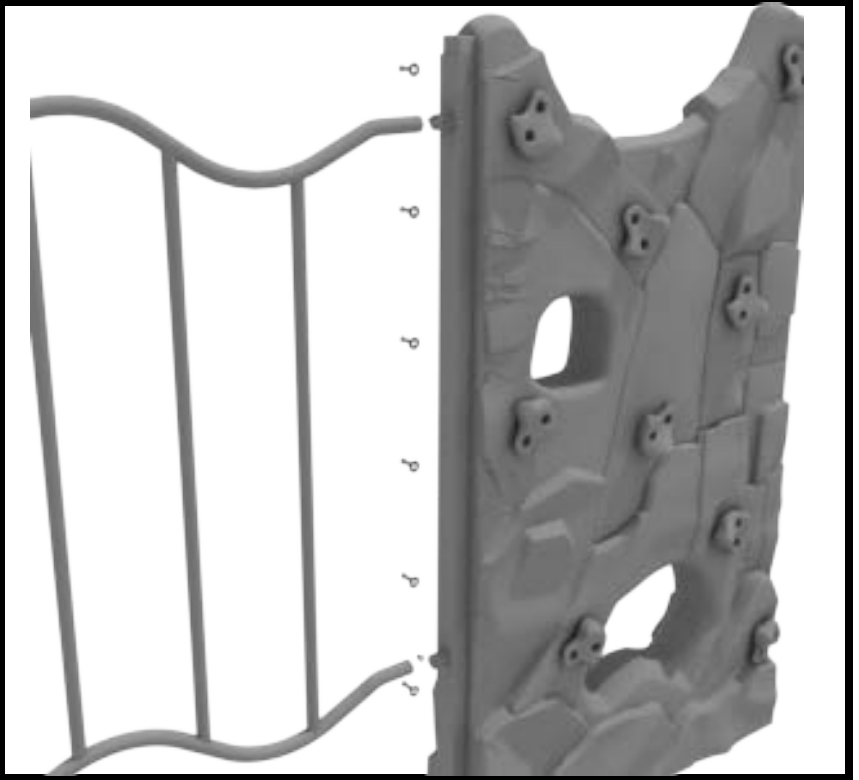

Wavy Ladder Connect Installation

See General Installation Guide regarding post footing information.

Attach the Wavy Craggy Climber Brackets to the section ends using seven (7) M12 bolts, seven (7) M8*60 inner hex screws, seven (7) M12 washers, and seven (7) M8 washers. Then, attach each end to the connection points using two (2) M8 screws, two (2) M8 locking washers, two (2) M10 Loading Bolts, and two (2) M10 Washers.

Repeat the steps on the opposing end.
