Inground Post/Mount Installation

STEP: 1

DO <u>NOT</u> CEMENT POSTS/MOUNTS INTO PLACE UNTIL THE ENTIRE STRUCTURE IS ASSEMBLED.

Refer to the General Installation guide footing size information and digging proper holes for the support posts/mounts.

4.5-inch Clamp Installation Examples

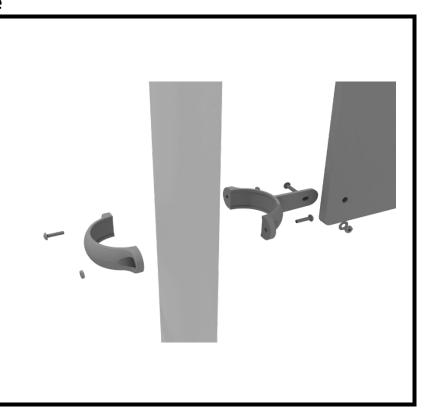

The following two pages will include examples of how to install some of the most common types of Clamps that are present on our structures that use 4.5-inch outside diameter posts. The structure that you are assembling might not require all the types of clamps listed in these examples.

The Install Guides for specific components that come later in this document might call for a specific type of clamp (a tube clamp for example), those sections will not include detailed instructions for the clamps and should direct you back to this section for more detailed information.

4.5-inch Flat Clamp Installation Example

Connect half of the flat clamp to the component using one (1) M8*30 bolt and Lock Nut. Then, using the other half of the flat clamp and the hardware provided in the clamp hardware bag, attach the backside of the flat clamp around the post.

4.5-inch Clamp Installation Examples

4.5-inch Tube Clamp Installation Example

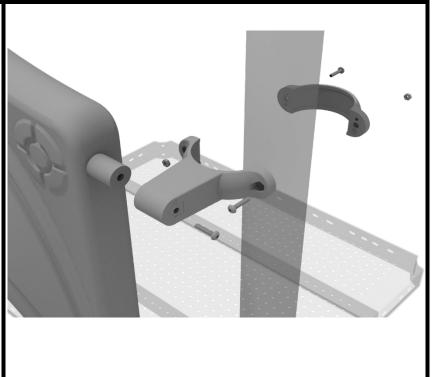

Insert Bar on Component into one half of the Tube Clamp and attach with M4*25 Set Screw. Then, using the other half of the tube clamp and the hardware provided in the clamp hardware bag, attach the backside of the tube clamp around the post.

4.5-inch Double Slide Clamp Installation Example

Connect half of the double slide clamp to the double slide hood using one (1) M8*30 bolt. Then, using the other half of the clamp and the hardware provided in the clamp hardware bag, attach the backside of the double slide clamp around the post.

4.5-inch 3-foot Transfer Station Install

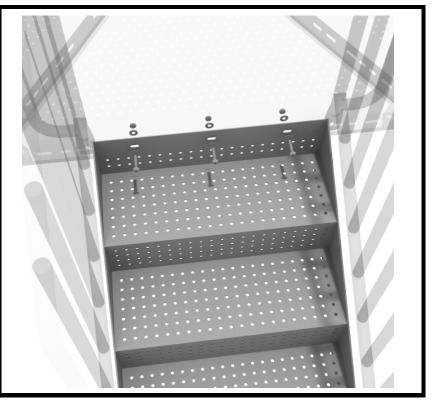

STEP: 1

Connect half of a tube clamp to the ADA transfer handrail using one (1) M4*25 self-tapping screw. Set the handrail into place, then attach the second half of the clamp using the hardware provided in the clamp bag. Repeat this process for the other handrail.

STEP: 2

Using three (3) M10*25 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the top of the stairs to the half hex deck. Then using four (4) M10*30 bolts, eight (8) M10 washers, and four (4) M10 lock nuts, attach the handrail to the bottom of the stairs. Then, using two (2) M10*25 bolts, four (4) M10 washers, and two (2) M10 lock nuts, attach the handrails to the deck.

4.5-inch 3-foot Transfer Station Install

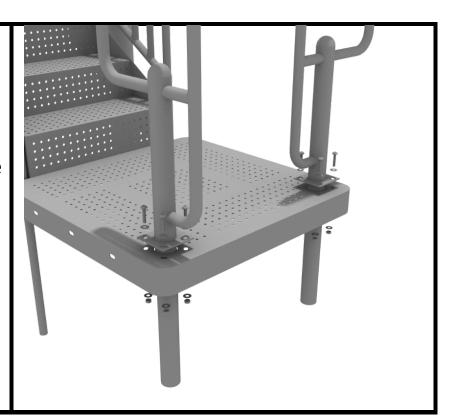

STEP: 3

Using three (3) M10*25 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the ADA transfer deck to the base of the 4-foot ADA transfer stair.

STEP: 4

See general installation guide regarding footing information for the transfer deck handrail. Using four (4) M10*25 bolts, eight (8) M10 washers, and four (4) M10 lock nuts, attach each transfer deck handrail to the ADA transfer deck.

4.5-inch 3-foot Transfer Station Install

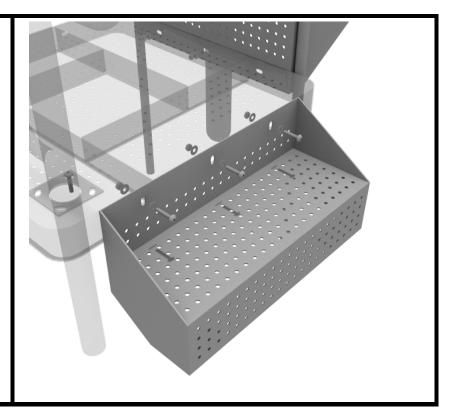

STEP: 5

See general installation guide regarding footing information for the ADA transfer step mount. Using two (2) M10*25 bolts, four (4) M10 washers, and two (2) M10 lock nuts, attach the transfer step to each ADA transfer step mounts.

STEP: 6

Using three (3) M10*25 bolts, six (6) M10 washers, and three (3) M10 washers, attach the top of the ADA transfer step to the ADA transfer deck.

Square Deck Installation

STEP: 1

After the posts are in place, using four (4) M10*35 Bolts, eight (8) M10 Washers, and four (4) M10 Lock Nuts, attach each square deck to each pre-attached deck clamp as shown in the image.

Deck clamps are pre-attached to the posts and should not be altered in any way.

Triangle Deck Installation

STEP: 1

After the posts are in place, using three (3) M10*35 bolts, six (6) M10 washers, and three (3) M10 lock nuts, attach the triangle deck to each pre-attached deck clamp as shown in the image.

Deck clamps are pre-attached to the posts and should not be altered in any way.

Funnel Tube Bridge Installation

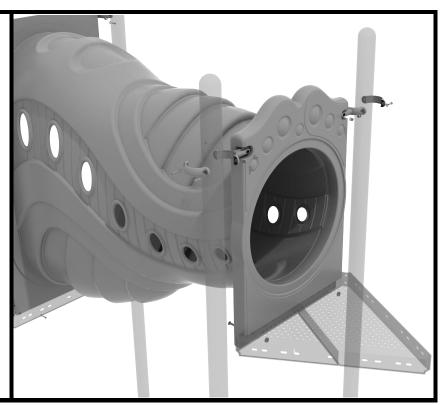

STEP: 1

Attach the larger PE panel side of the Funnel Tube Bridge to the posts using four (4) flat clamp, four (4) M10*50 bolts, eight (8) M10 washers, and four (4) M10 lock nuts.

STEP: 2

Attach circle panel side of the Funnel Tube bridge to the deck using two (2) M10*50 bolts, four (4) M10 washers, and two (2) M10 lock nuts. Then, attach the top of the tube bridge to the posts using one (1) flat clamp, one (1) M8*40 bolt, one (1) M8 washer, and one (1) M8 lock nut for each post attachment point.

3 Foot Boulder Climber Installation

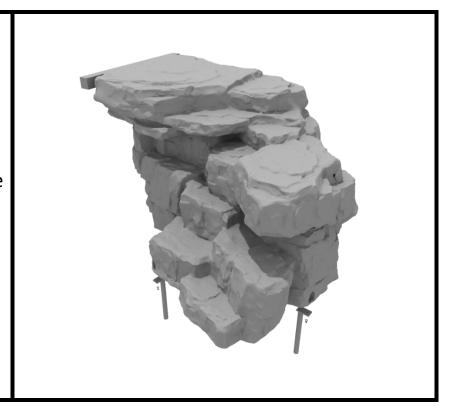

STEP: 1

See general installation guide regarding footing information for the Rock Hole climber. Using two (2) M10*20 bolts, two (2) M10 spring gaskets, and two (2) M10 washers, attach the bottom of the boulder climber to the climber support posts.

STEP: 1

Align the Boulder Climber next to the appropriate Deck. This climber does not attach directly to the structure.

Overhead Snake Loop Ladder Installation

STEP: 1

Attach the Overhead Snake Ladder to the designated posts by connect half of the tube clamp to the ladder using one (1) M8*30 bolt. Repeat this process for each attachment point. Set the ladder into place, then attach the second half of the clamp around the post.

4-foot Double Straight Slide Installation

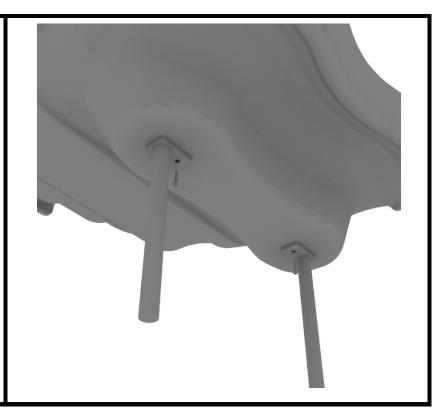

STEP: 1

For the double slide, you will first need to attach the double slide deck extension. This will require four (4) M10*25 bolts, eight (8) M10 washers, and four (4) M10 lock nuts.

STEP: 2

Then, See general installation guide regarding footing information for the double slide end mounts. Using two (2) M8*20 bolts, two (2) M8 spring gaskets, and two (2) M8 washers, attach the slide end mounts to the double slide.

4-foot Double Straight Slide Installation

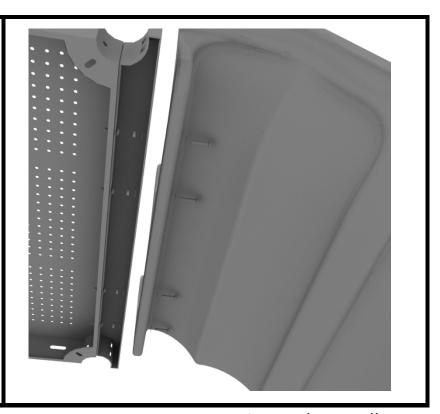

STEP: 3

Then, See general installation guide regarding footing information for the double slide middle support. Attach the middle support to the slide using two (2) M8*20 bolts, two (2) M8 spring washers, and two M8 washers.

STEP: 4

Then, attach the slide to the deck extension using four (4) M10*45 bolts, eight (8) M10 washers, and four (4) M10 lock nuts.

STEP: 5

Once the slide is attached, take the double slide hood and insert it into the top of the slide, and then attach the top using two (2) double slide clamps, and two (2) M8*30 bolts.

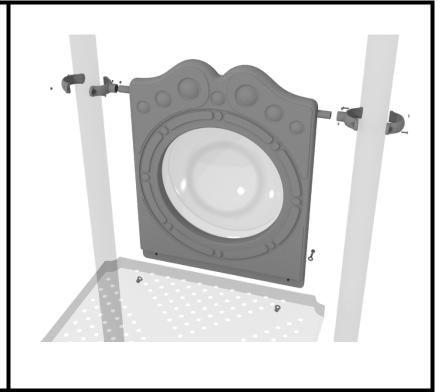

10859 E Washington St. Suite 200 Indianapolis, IN 46229 1-800-667-0097

4.5-inch Bubble Panel Installation

STEP: 1

Attach two tube clamps to the Bubble Panel using two (2) M4*25 self-tapping screws and attach those clamps to the proper support posts. Then, attach the bottom of the metal barrier to the deck using two (2) M10*50 bolts, four (4) M10 washers, and two (2) M10 lock nuts.
