

# Inground Post/Mount Installation

## STEP: 1

**DO NOT CEMENT POSTS/MOUNTS  
INTO PLACE UNTIL THE ENTIRE  
STRUCTURE IS ASSEMBLED.**

Refer to the General Installation  
guide footing size information and  
digging proper holes for the support  
posts/mounts.

## 3.5-inch Clamp Installation Examples

The following three pages will include examples of how to install some of the most common types of Clamps that are present on our structures that use 3.5-inch outside diameter posts. The structure that you are assembling might not require all the types of clamps listed in these examples.

The Install Guides for specific components that come later in this document might call for a specific type of clamp (a tube clamp for example), those sections will not include detailed instructions for the clamps and should direct you back to this section for more detailed information.

### 3.5-inch Flat Clamp Install Example

Connect half of the flat clamp to the component using one (1) M8\*40 bolt. Then, using the other half of the flat clamp and the hardware provided in the clamp hardware bag, attach the backside of the flat clamp around the post.

## 3.5-inch Clamp Installation Examples

### 3.5-inch Tube Clamp Install Example

Connect half of the clamp to the component using one (1) M8\*30 bolt. Then, using the other half of the tube clamp and the hardware provided in the clamp hardware bag, attach the backside of the tube clamp around the post.

### 3.5-inch 90-Degree Flat Clamp Install Example

Connect half of the flat clamp to one panel using one (1) M8\*40 bolt. Then, using the other half of the flat clamp and the hardware provided in the clamp hardware bag, attach the other half of the tube clamp around the post. Then, attach the next panel to the other side of the clamp using the same process.

## 3.5-inch Clamp Installation Examples

### 3.5-inch Double Slide Clamp Install Example

Connect half of the double slide clamp to the double slide hood using one (1) M8\*30 bolt. Then, using the other half of the clamp and the hardware provided in the clamp hardware bag, attach the backside of the double slide clamp around the post.

# Three Wheel Overhead Ladder Installation

## STEP: 1

Attach the Overhead Ladder to the designated posts by connect half of the tube clamp to the ladder using one (1) M8\*30 bolt. Repeat this process for each attachment point. Set the ladder into place, then attach the second half of the clamp around the post.

# Overhead Access Ladder Installation

## STEP: 1

Attach the Overhead Access Ladder to the designated posts by connect half of the tube clamp to the ladder using one (1) M8\*30 bolt. Repeat this process for each attachment point. Set the ladder into place, then attach the second half of the clamp around the post.

# Overhead Climber Clamp Support

Once clamps are installed on structure, secure clamp to post by using hardware provided. Use one bolt cap with cover, one washer, one screw. Drill into the backside of the clamp.
